

**INTRODUCING
OUR ALL-NEW**

FLOMEC®

QS200

**INSERTION ULTRASONIC
FLOWMETER**

(Transit Time Technology)

ENGINEERED TO DELIVER
Better Performance, Higher Quality and Lower Cost

- 5 Pipe Sizes: 1" to 4"
- Simple 2-Wire Connector (For Power and Pulse)
- External Wiring (Direct Burial Wire)
- Use with Irrigation Controllers (Common Brand Name Irrigation Controllers)
- Tee Housing Material: Schedule 80 PVC
- + 2.0% Accuracy of reading
- Operating Pressure: 150 PSI
- Temperature Range: 32°F to 140°F
- Led Light Indicators (Green for Power, Yellow for Pulse Indication)
- No Moving Mechanical Parts (Low Maintenance)
- Patented design

Insertion Sensor
Material: Ryton- PPS-
40% Glass Filled

GREAT PLAINS INDUSTRIES

Wichita / Sydney

*A leader in quality flowmeter manufacturing
and distribution worldwide.*
